

Seamless 304/304L

Seamless Pipes

Core seamless range for stable operation under varying loads.

Used in pipeline systems and process units where reliability and service continuity are critical.

Technical specifications

Steel grade	AISI 304 / 304L
Standard	ASTM A312 / ASTM A213
Size range	OD 6-508 mm
Wall thickness	SCH10S-SCH80S
Delivery condition	Stock and project batches

Application areas

- Main process lines
- Heat exchangers
- High-pressure sections
- Power facilities
